

# Disinfecting the Environment Control (MRSA - MDR)

BIOXeco-FOG is an ecological highly-effective disinfectant that has a broad spectrum bactericide, fungicide, virucide, Algacide, sporocide. They are odorless, tasteless, colorless, and biodegradable to non-toxic elements. BIOXeco-FOG disinfectant is used to create a germ free environment by disinfecting it in hospitals or clinics through fogging using BIOXeco-FOG, and avoid the spread of many different microorganisms and viruses that can spread easily through the air and cause diseases like Legionnaire's disease, bronchitis, asthma, influenza, or even cold. BIOXeco-FOG can be implemented using an accessory called BIOXeco-3 to ensure the optimum results. This accessory is provided by OAM Chemie with high technology to guarantee a successful disinfection and a clean patient environment. By using BIOXeco-3, the peroxide residual in addition to the pH level and humidity levels in the air can be easily controlled.

### Benefits and Advantages:

- Chlorine free/Alcohol free
- Odorless, colorless, and tasteless
- Eco-friendly
- Controls a broad spectrum of micro-organism
- Economical due to high stability and low operational cost
- Exclusive formula based on Hydrogen Peroxide stabilized and activated by silver
- Controls the level of peroxide residuals, pH, and humidity levels in the air.
- Certified and approved by authorities in more than 35 countries

### Brands:

stabilized Hydrogen peroxide, environmental friendly, original and exclusive formula of OAM Chemie Belgium. Please visit [www.bioxeco.com](http://www.bioxeco.com).

**Application fields:** Disinfecting the environment in hospitals and clinics through fogging or more details about method mechanism of application, please contact the authorized distributor.

**Package:** 5 kg.

**Storage and Safety:** Causes burns. Keep out of reach of children. Keep in cool place below 35°C. After contact with skin, wash immediately with plenty of water. Wear suitable protective clothing, gloves and eye/face protection. In case of accident or if you feel unwell seek medical advice immediately. Keep the container closed, in an upright position, away from direct sunlight.
